Analysis And Design: A Handbook For Practitioners And Consultants In Church And Community Work

George Lovell

Analysis And Design: A Handbook For Practitioners And Consultants In Church And Community Work provides a practical approach for involving affected communities in the design and implementation of projects. The book covers a range of methods, including participatory planning, evaluation, and design techniques. It is designed to help practitioners and consultants in church and community work to create hands-on toolkits for starting up and managing participatory projects. This book is a valuable resource for anyone involved in community development, church work, and consulting.
