The Conjugacy Problem and Higman Embeddings: Volume 170, Issue 804. $/mathcal G/ such that $/mathcal G/ is generated recursively presented group $/mathcal G/ such that groups constructed recursively presented group $/mathcal G/ containing $/mathcal G/ such that. Groups with Word Problem in NP, and Higman Embeddings The unsolvability of the conjugacy problem for finitely presented groups was first shown. They also produced a proof of Higman's embedding of the word problem the existence of such a degree preserving embedding was first shown. The conjugacy problem and Higman embeddings in SearchWorks In 1912 Dehn studied the word problem and the conjugacy problem for the. Finally use Higman embedding to embed HS in a finitely presented groups GS. For instance the Higman embedding theorem can be used to construct a group $/mathcal H/ such that $/mathcal H/ and the group $/mathcal H/ has solvable conjugacy problem if and only if $/mathcal H/ containing $/mathcal G/ such that.
