Santa Fe to Roswell, New Mexico - Road Trip Travelogue

The Santa Fe Trail was a 19th-century transportation route through central North. The road route is commemorated today by the National Park Service as the Santa Fe National Historic Trail. The road is marked by signs and interpretive panels along the route.

The route begins in Santa Fe, New Mexico, and extends north to Taos, New Mexico. The route is approximately 104 miles (167 km) long.

The route was used by traders, explorers, and settlers for nearly 150 years. It was an important route for the movement of goods and people between the United States and Mexico.

The route is marked by signs and interpretive panels along the route, providing information about the history of the route and the people who used it.

The route is also a popular destination for outdoor enthusiasts, with many opportunities for hiking, biking, and other activities.

The route is well-maintained and easy to follow. It is a great way to explore the history and culture of the American Southwest.

The route is open year-round, but the weather can change quickly, so it is important to be prepared for all conditions.

The route is a great way to explore the history and culture of the American Southwest, and is a popular destination for outdoor enthusiasts.
